

## Watertight Drawpit / Inspection Chambers

**Amlite** all new fully Watertight chambers designed for complete containment solutions of below ground cables and equipment.

- Manufactured from high quality Polyethylene. Suitable for direct burial
- Easy access sealable bolt down watertight lid
- Available in multiple heights to suit duct and pipe burial depths
- Fully compatible with Amlite Composite Manhole Covers to B125 and D400 load ratings
- Install with Amseal Cable and Pipe Seals for a fully watertight secure system

The **Amlite** watertight access chamber is a secure quick to install chamber system used throughout the Civil Engineering industry.

The innovative design allows an easy to maintain and inspect chamber network for such applications as Telecomms, CCTV, Fibre Optic, Utilities supply - and much more.

The integral lid is fully sealed and bolted giving outstanding performance preventing outside water ingress to below ground infrastructure projects where a clean environment is crucial for maintenance and inspection.

Designed to be used with the **Amlite** range of bolt down Composite Covers, added security is achieved plus the cover range offers a variety of load ratings to suit almost all applications.

**Amseal** pipe and duct seals are easily fitted to the chambers to further ensure the integrity of the chamber is maintained. This seal system was developed in the Petrol Forecourt industry to ensure ducts, pipes and cables were at all times protected when entering and exiting chambers.

**Amseal** offer a range of sizes to suit most cable and duct runs.

Part Number	Sizes
ADP-5050500B125	500 x 500 watertight chamber 500mm high c/w B125 Composite Cover
ADP-5050650B125	500 x 500 watertight chamber 650mm high c/w B125 Composite Cover
ADP-5050750B125	500 x 500 watertight chamber 750mm high c/w B125 Composite Cover
ADP-5050500D400	500 x 500 watertight chamber 500mm high c/w D400 Composite Cover
ADP-5050650D400	500 x 500 watertight chamber 650mm high c/w D400 Composite Cover
ADP-5050750D400	500 x 500 watertight chamber 750mm high c/w D400 Composite Cover
